

TOWN OF EAST HAMPTON

159 Pantigo Road
East Hampton, New York 11937

In order to comply with Governor Cuomo's requirements for reopening after the NY on PAUSE pandemic shutdown, Suffolk County will be hiring a number of "contract tracers" who will work to identify and reach out to anyone who has been in contact with someone with a confirmed case of COVID-19.

“New York State will hire and train a team of staff working remotely to support the NYS Department of Health (NYSDOH) and Local Health Departments (LHDs) to perform COVID-19 contact tracing in communities across NYS.

This contact tracing initiative is in tandem with statewide-wide efforts to increase testing, improve communication and knowledge of effective strategies to reduce transmission, and implementation of isolation and quarantine. This will fortify efforts to control the pandemic in NYS.

The Contact Tracer will use a web-based client resource management (CRM) platform to call all contacts of anyone diagnosed with COVID-19, determine exposure, assess symptoms, refer for testing according to established protocols, and provide them with instructions for isolation or quarantine.”
